

FACTS AND FIGURES

COMPANY	Joblift GmbH	
PRODUCT	Joblift is a job search platform that scours over 4,000 partner job boards and uniformly compiles employment offers on one site. What sets Joblift apart from other job portals? A highly intelligent search algorithm, precise filters for more personalized search results, as well as intuitive navigation and user-friendly design. Additionally, job seekers can sign up to receive regular job alerts via email.	
ADVANTAGES	Joblift currently boasts a collection of more than 10,000,000 jobs—making it far more comprehensive than most job portals. By offering a clear and comparative overview of job listings, Joblift has freed jobseekers from the tiring task of looking for offers on countless different platforms. Furthermore, Joblift also allows users to customize their job search with precise filters, such as employment level, job sector, working hours, and more. This user-friendly approach makes the often strenuous job hunting process as comfortable as possible.	
URL	joblift.com	
ACCESSIBILITY	Intuitive usability; user-friendly input screen; searches with an unspecified location or job are also possible; search filters according to employment type, working hours, sector, company, and date of job posting; jobs sorted by relevance or date of posting.	
DISPLAY OF RESULTS	Relevant jobs are clearly listed stating location, date of posting, position, company, partner job board and the link to the job posting.	
APPLICATION	The user can apply on the website of the relevant partner job board through a direct link.
